RE: Relocate Existing Handicap Space

Please let this letter serve as the documentation to relocate the handicap space from the east side of the parking to the west side of the parking area. The reason for this relocation is the fact that the main entrance front doors to the newly renovated animal hospital are at the far west side of the building thus providing the nearest location of the handicap spaces to the front entrance doors. Please refer to the attached drawing showing the relocation.

Any questions please call me at 1-772-260-0649.

Ronald E. Kirchamn II

PROPOSED NEW GENERATOR LOCATION

EXISTING BUILDING AREA: 7,250 SQ. FT. SINGLE STORY
