**Re: Broadstone Cypress Hammocks – Permit #12001159 – Removal of Solar Plans / Documentation
from Clubhouse Permit Set**

Dear Mr. Jack Boone,

I am the qualifier for the general contractor on the Broadstone Cypress Hammocks project. This letter is being composed in regards to the removal of the solar engineering package from the overall Clubhouse permit package due to the structural plan review comments that we are having difficulty addressing. I am opting to remove all solar related plans and/or documentation from the Clubhouse package due to the timing of our final inspections and our expected date of Certificate of Occupancy issuance. Because we have been unable to get the solar package approved, I would like to remove it from the clubhouse package and permit it separately at a later date so as not to affect the issuance of the certificate of occupancy.

If you have any additional questions or concerns please feel free to reach me at (561) 441-6351

Respectfully,

A handwritten signature in black ink, appearing to read 'Bruce Francis', with a long horizontal flourish extending to the right.

Bruce Francis
