

Fire/Law Enforcement Rapid Entry System

Exterior Padlock Features and Benefits

Knox Padlocks are operated with the same Knox Master Key used for other Knox Rapid Entry System devices. The exterior, heavy duty Knox Padlock (Model 3770) with a stainless steel shackle is designed for securing perimeter or fire access gates, industrial equipment yards and residential storage areas. The shrouded all weather padlock (Model 3772) provides additional security against pry and cut attacks.

- Rust free, all-weather stainless steel shackle
- Heavy-duty lock design and solid brass body resists pull attacks
- Lock and body cover protects padlocks from harsh weather conditions and outdoor sprinkler systems
- Medeco® cylinder has a UL 437 rating not offered by most padlock manufacturers
- Choice of ID label (Fire/red, EMS/white, Police/blue, Sheriff/gold, Security/white)

Interior Padlock Features and Benefits

The Knox interior padlock (Model 3771) is designed to secure fire sprinkler control systems, hazardous chemical supplies, restricted utility areas and equipment lockers. The UL® listed padlock resists pull attacks.

- Hardened steel shackle; 5/16" diameter shackle fits on a wider range of interior hasps
- Heavy-duty lock design and steel body resists pull attacks
- Medeco cylinder has a UL 437 rating not offered by most padlock manufacturers
- Choice of ID label (Fire/red, EMS/white, Police/blue, Sheriff/gold, Security/white)

Typical application showing the Knox padlock daisy chained with the property owner's padlock allowing entry by either party.
